

Landscape Project Foreman

Fellet Landscaping & Sprinkler Company, Inc. is a family owned business that has served the Denver Metro Area for almost 50 years. We had a record setting year last year and we are preparing for another this year. We need a Landscape Project Foreman to join our "family" before the spring season starts.

Position Summary:

Ability to work independently on a daily basis to complete assigned work. Must have knowledge of installation/repair of all aspects of residential irrigation systems. Must have the knowledge to install hardscape and water features. Must be able to supervise / manage on-site crews from start to finish and be able to communicate with clients regarding projects.

We will offer the right person a great opportunity to develop their skills with our Company.

Must have a valid US driver's license, a clean MVR and excellent references.

Qualifications:

- Minimum 5 years of directly related experience in the Landscape industry, including landscape and irrigation installation
- Ability to understand and interpret landscape / blueprint plans
- Knowledge of hardscape construction
- Knowledge of irrigation installation techniques & components and drainage systems
- Knowledge of water features
- Ability to identify commonly used landscape plant materials
- High motivation and positive attitude
- Excellent communicator
- Ability to work flexible and extended hours as required per business needs. May be required to perform Some position responsibilities prior to crew start and after crew end times
